# LAMILUX Composites – materials for the markets of the future

LAMILUX product finder at: [www.LAMILUX.de](http://www.LAMILUX.de)

**LAMILUX is Europe's largest producer of sheets and lengths of fiber-reinforced plastic.**

The composites produced on four production lines in a large scale industrial flat sheet process make highly stable, resilient and extremely light-weight construction materials, which pave the way for promising product developments and also open up new fields of application in growing global industries such as lightweight construction of caravans, commercial vehicles and busses.

» Our enthusiasm for impressing our customers with innovative, well-developed products and creative solutions and helping them achieve their own successes with their company is what drives both me and our company. Every day at LAMILUX is devoted to adapting our technological developments and our services to meet our customers' demands and needs: Our company philosophy puts our customers at the heart of everything we do. «

**Dr. Heinrich Strunz,**  
the third generation of managing partners at LAMILUX  
Heinrich Strunz GmbH

## LAMILUX will help you gain the competitive edge

» LAMILUX consistently sets itself apart with outstanding service and top-quality products. Extensive support for our production and purchasing departments rounds off the business relationship. «

**Nick Howard,**  
Managing Director of Bailey of Bristol

» We are able to design newly developed structures extremely flexibly and make them suitable for market quickly, since LAMILUX offers us an extensive range of fiber-reinforced plastics from a single source. «

**Hermann Pfaff,**  
Chairman of Hymer AG

## LAMILUX will help you achieve sustainability

- We produce your materials in an extremely **raw-material- and energy-saving production process we developed ourselves.**
- We manufacture your construction material in an **environmentally-friendly manner with award-winning technology.** Our afterburning systems transform the extracted styrene-laden air into energy and direct it back into the production process.
- We select our suppliers based on their **sustainability in the production** procedures.

### The LAMILUX CI Philosophy

Customer value is the reason for our existence and is the focus of our activities. This requires harmony, identity and a balance between customer benefit and company strategy.

These guiding ideas for our company's actions and our day-to-day relationship with our customers are described in LAMILUX's company philosophy:

#### Customized intelligence - Serving the customer is our mission:

This requires outstanding performance and leadership in all areas relevant to customers, particularly in the role of:

- Quality leader - optimum benefit for customers
- Leader in innovation - at the cutting edge of technology
- A leader in service - fast, uncomplicated, reliable and friendly
- A leader in expertise - optimum sales and technical advisory services
- A leader in solving problems - individual, tailored solutions

# LAMILUX Composites –

Automotive standard in the caravan industry

In all phases of the development, production and life cycle, LAMILUX composites are accompanied intensively by our research and development team. Extensive material tests and analyses help us to reliably improve the properties of our composites and secure their resilience and long service life – to ensure that we always deliver 100 % quality to you. We have state-of-the-art laboratory equipment and simulation environments at our disposal, as well as an experienced team of engi-

neers and technicians. We have also built up a network of testing facilities and institutes to ensure that we can also carry out country-specific on-site tests for our international customers in a rapid and scientifically sound manner.

Sun-/Xenotest

Infrared/halogen radiation

Outdoor weathering

Thermography test

Noise prevention acc. to PIEK

Abrasion/slip resistance

Adhesion/delamination test

Gas chromatography

All tests certified in compliance with TÜV SÜD quality

TÜV SÜD certified quality

Adhesion

Solvent welding

Temperature changes

Rain

Hail

UV radiation

Frost

Mechanical load

Chemical load

Abrasion

Noise

Scratching resistance

All tests certified in compliance with TÜV SÜD quality

TÜV SÜD certified quality

Impact test

DMA measurement

Temperature change test

Condensation water test

Tensile/bending strength

Torsion test

Barcol hardness

Impact resistance acc. to Charpy

## LAMILUX will help you achieve security – **Made in Germany**

- Our **continuous production process** controlled by **highly qualified skilled workers** always produces **consistent, high quality** for you.
- **We create your unique selling points:** Our engineers and technicians work with you in close consultation on the material's intended use to develop **individual, sector-specific product solutions**.
- As European market leader, we have **large production capacities** and can therefore guarantee **reliable delivery**
- Before each composite production, we carry out **extensive checks on the delivered** raw materials. We choose our suppliers based on the highest quality criteria.
- **During and after the production process**, we subject your material to extensive checks and **laboratory tests**.
- **We check the mechanical, chemical and physical properties** of the finished plastic in the **real usage environment** and test its behaviour in combination with other materials.
- **We continue to develop your individual material** and work for you to optimize the material properties in the relevant application areas.

## LAMILUX will save you time and money

The continuous production process guarantees the maximum quality and consistency

- You can always reach us in your specific time zone thanks to our **international local representatives**.
- **Warehouses in a large number of different countries and regions** guarantee quick delivery times for your material **anywhere in the world**.
- **We transfer our know-how** and offer **on-site engineering support** for processing the composites and questions relating to the specific application.
  - Our **flexible production technology** allows us to begin producing your individual material
    - quickly **after just a short machine changeover time**.
- Our continuous, highly-automated production process **delivers results that can be reproduced at any time**  
**Materials in the highest, consistent quality**.
- A highly trained maintenance and repair team guarantees that our four **production lines** **operate smoothly and without problems**.
- Our decades of experience in logistics enables us to offer **cost-efficient delivery of materials worldwide**.

# LAMILUX Composites – Individual solutions for your applications

The information submitted in this data sheet is based on our current knowledge and experience. Technical values do not represent any assurance of characteristics within the scope of a specification. Users have to check the product's suitability for the respective application owing to the wide range of available application parameters. We reserve the right to make mistakes or modifications.
